TECH PARTNERSHIP

A hybrid event gives you the best of both worlds — reaching and engaging an audience in-person and virtually. We can collaborate with trusted partners to create unique events that unite guests through technology. Together, we'll ensure there's a well-executed plan to create a user-friendly, fun and innovative experience.

EXCLUSIVE VENUES

To host an event in-person, you'll need a venue, and we have you covered! We operate two iconic St. Louis venues — The Coronado & Palladium Saint Louis. Plus, Butler's Pantry is a preferred caterer at 40+ other St. Louis venues.

What does this mean for hybrid events? We have the space for the in-person part of your event, as well as, the most current technology installations needed to virtually connect and interact with your digital audience.

The Coronado - A historic venue in Midtown described as bright, elegant, grand and extraordinary. An inviting space that can fit up to *900 people for any kind of occasion!

Palladium Saint Louis - With room for up to *700, this venue is a distinctively modern choice for weddings, social gatherings, corporate functions and galas.

*Capacity may be reduced to governmental safety regulations for gatherings

EVENTS RE-IMAGINED

These days, it's all about creating an experience where guests can feel together, while remaining safely distanced. We have the resources to explore entertaining options that maybe you haven't even imagined.

DRIVE-IN, DROP-BY, SAFELY DISTANCED

Drive-In Style Gala - It's just what it sounds like, only elevated with beautifully set tables, a multi-course dinner and a live program. It's a modern experience with a throw back to simpler times!

Outdoor Social - Sometimes a quick meet & greet is all you need to impress and make an impactful connection. With a well-thought objective and tasteful ambiance, a simple drop-by event could make for a memorable occasion.
